

Magazine Design

"An experienced, London-based graphic designer with a flair for typographic design, illustration and layout. And I can code too, which means that I can deliver a complete project from first concept to final publication, whether it's for print, UI or web."

Transmitter Magazine

Transmitter is a small local magazine concentrating on the Crystal Palace area, focusing on local trade, events, people and history.

Now in its seventh year it has a strong following in the area. Wanting to be better than other local mags and with a lot of creative people in the area it has some great writing and interesting articles. My job is to put them together and make them look good.

Partnerships Bulletin

A subscription based specialist business magazine for the Public Private Partnerships market.

The brief was to create a new design with a structured and contemporary feel while keeping it serious and business like.
